

Saddle Lake Parents!

Should You be Worried About Your Kids and Drugs?

Learn from an [ex-drug user & dealer](#) what helps and what doesn't.

Tom Barthel founded Street Smart Counselling. He draws from his experience as a drug dealer, drug user, and mentally ill person. Now, leading a successful life, he shares with parents what they need to know in regards to their children. This way they will know what to do, and what not to do, and what can be done to prevent an addiction. These strategies work to begin prevention in children as young as 12 years old, and help recover addictions and mental health issues in people as old as 30. This course addresses attitude problems as well.

Parents will learn:

- An explanation of the power of choice that you will never forget.
- Myths about drug use and addiction that are not serving you.
- The first action you need to take to prevent an addiction and troubles, and recover your child from them too.
- The profound difference between "Punishments" and "Boundaries" and how only one will save your family and your child.

Learn what only years of real life experience can offer. Pre-registration is encouraged.
